SUBJECT INDEX

ABNORMALITIES in rams, 48
Acid–base measurements:
  cats under anaesthesia, 202
  ruminants, 94, 95
Adrenal cortex, disease in small animals, 329
Adrenal medulla, disease in small animals, 335
Adrenaline in small animal anaesthesia, 13
Aetiology of fatty liver syndrome in laying hens, 602
  factors responsible, 603
  mechanism of induction, 607
Age distribution and ram fertility, 47
Agents of immunosuppression, 288
Agonists in small animal anaesthesia, 13
Alimentary tract colonization with salmonellas, in chicks, 403
Amiodarone hydrochloride in small animal anaesthesia, 11
Ammonium-ferric-cyano-ferrate(II) as antidote against radiocaesium absorption, 363
  absence of residues in cows, 366
  chemistry and mode of action, 364
  discovery of antidote effect, 363
  dose and extent of radiocaesium reduction in milk and meat, 367
Amrinone in small animal anaesthesia, 18
Anaerobic bacteria in equine infection, 374
Anaesthesia and cardiac disease in small animals, 108
Anaesthesia and obesity, 21
Anaesthesia in small animals, 5, 108, 323
  anaesthetic agents, 5
  antidysrhythmic agents, 5
  cardiac disorders, acquired, 110
  cardiac disorders, congenital, 108
  effects of anaesthetic drugs on cardiac function, 112
  endocrine disease, 323
  parasympatholytics, 15
  parasympathomimetics, 16
Animal disease research, 105
Anoestrus, seasonal in mares, 417
Antagonists in small animal anaesthesia, 15
Antibiotic Resistance Index, 307
Antibodies to parainfluenza virus type 3 in Minnesota swine, 613
Antidysrhythmic agents, 5
  class 1a, 7
    procainamide hydrochloride, 7
    quinidine, 8
  class 1b, 9
    aprinidine, 9
    lignocaine hydrochloride, 9
  class 2, 9
    propranolol hydrochloride, 9
  class 3, 11
    amiodarone hydrochloride, 11
    bretylium tosylate, 11
  class 4, 11
    verapamil, 11
  digitalis glycosides, 12
Aortic stenosis in small animals, 110
Aprinidine in small animal anaesthesia, 9
Atrophic rhinitis in pigs, 395
Atropine sulphate in small animal anaesthesia, 15

BACTERIA causing immunosuppression, 289, 296
Berenil as treatment for trypanosomiasis, 384
BHV infections, detection in clinical specimens, 61
BHV-I virus:
  detection in infected cells, 59
  preparation of, 56
Blood gas parameters in ruminants, 94, 95
Bone in horses:
  assessment of skeletal maturity, 2
  disease and lameness, 2
  osteoporosis, 2
  quality, 1
  studies on bone structure and metabolism, 3
Bone in poultry, growth, 82
Bone structure, defects in poultry, 81
Book Reviews, 101, 205, 310, 413, 517, 616
Bovine herpes virus I in semen, 55
Breed distribution and ram fertility, 47
Bretylium tosylate in small animal anaesthesia, 11
Bunaji cows:
  detection of oestrus, 259
  interval between calving and oestrus, 258

CALCIUM solutions in small animal anaesthesia, 17
Campylobacter fetus and infertility, 29
  culture results, 34
  serological grouping, 40
Campylobacter-infected heifers, results of VMAT and cultural examination, 41

Campylobacter jejuni in quails, 411
Campylobacter sp., biochemical and tolerance characteristics, 38
Cannulation, intestinal, of horse, 449
Cardiac disorders in small animals, 108
Cardiomegaly and pulmonary oedema in cattle, 125, 127
Cardiovascular disease in dogs, as consequence of obesity, 25
β-Carotene, role in prevention of tissue peroxidation, 491
Cats, acid–base measurements from ovarian blood, 202
Cattle:
  beef production, profits, 419
  Beefplan gross margins and forecasts, 420
  blood biochemical values of calves with and without Zeranol, 75
  blood sampling in calves, 73
  bone marrow sampling in calves, 73
  bone marrow smear cell counts in calves with and without Zeranol, 77
  claw keratin composition in British Friesian cows, 534
  congenital defects of the heart, 123
  Dairy Herd Health and Productivity Service, 470
  diarrhoea in calves, 521
  distribution of copper in young steers, 543
  economics of beef production, 419
  experimentally infected bovine serum, 56
  fat necrosis, 507
  haematological values in calves with and without Zeranol, 75
  implantation of calves with Zeranol, 73
  induced hypocalcaemia in ruminants, 229
  infertility, 29
  influence of growth promoter in calves, 72
  interval between calving and oestrus in Bunaji cows, 258
  interventricular septal defect, 127
  isoprothiolane treatment of fat necrosis, 507
  lameness in Friesian dairy cows, 273
  lameness and horn composition, 534
  mastitis control, 316
  mastitis incidence at drying off and calving, 166
  mastitis and machine milking, 524
  monitoring herd health, 470
  pansystolic murmur, 128
  patent ductus arteriosus and patent foramen ovale, 124, 128
  pralidoxime in buffaloes, 236
  progesterone concentrations in body fluids, 262
  radioimmunoassay of oestrone sulphate in serum, 269
  serum progesterone concentrations in post-partum Zebu cows, 253
  subcellular fractionation of liver tissue of steers, 545
  supplementation of diet of steers with Mo and S, 543
  Trypanosoma congolense infection in Boran cows, 377
  Trypanosoma congolense infection in Zebu bulls, 388
  Trypanosoma vivax in Zebu bulls, 388
Chernobyl accident, after effects, 179
  ground deposition and iodine-131 in milk, 181
  health considerations, 183
  monitoring of radioactivity, 180
  protective measures, 184
  restrictions on international trade, 185
  spread of radioactivity, 179
Civet cat, rabies in, 515
Claw keratin and claw disease in Friesian cows, 534
Clinical pathology of goats with tick-borne fever, 584
Computers in dairy farm management, 351
Congenital heart defects in cattle, 123
Copper distribution in young steers fed Mo and S, 543
Cushing's disease (hyperadrenocorticism) in small animals, 332

Dairy farm management, computers in, 351
Dairy Herd Health and Productivity Service, 470
Deficiency of vitamin E in animals, 482
Diabetes mellitus:
  in dogs, 23
  in small animals, 323
Diarrhoea:
  in calves, 521
  in lambs, 522
Diet, effect on gastrointestinal lead absorption in young dogs, 240
Diet protein and leg defects in poultry, 84
Digitalis glycosides in small animal anaesthesia, 12
DNA:
  BHV-I, detection in infected cells, 59
  cloning, 56
  hybridization, 57
  probe labelling, 57
  purification, 56
  viral, detection in experimentally infected semen, 60
Dobutamine hydrochloride in small animal anaesthesia, 14
Dopamine hydrochloride in small animal anaesthesia, 14
Dogs:
  cardiovascular disease, 25
  diet and lead poisoning, 240
  liver disease, 26
  obesity, 21
  pancreatic insufficiency, 174
  parasites in Kabul dogs, 370
  respiratory diesease, 25
  secondary polycythaemia, 26
  skeletomuscular disease, 26
  trypsin digest tests for pancreatic insufficiency, 177
Dot-blot hybridization assay, 55
Drugs:
  acting on adrenergic receptors, 12
    agonists, 13
    antagonists, 15
  acting on cholinergic receptors, 15
    parasympatholytics, 15
    parasympathomimetics, 16
  emergency, dosages and infusion constants, 16
Dry cow therapy and mastitis, 166
Dye excretion tests in goats with tick-borne fever, 583

Economics:
  beef production, 419
  Beefplan gross margins, 420
  computers in dairy farm management, 351
  milk production, 213
  milk quotas, 221
  pig production, 434
  sheep production, 426
  significant enteric infections in domestic animals in Australia, 521
  veterinary services, 343
Ectoparasites of dogs in Kabul, 371
Edrophonium chloride in small animal anaesthesia, 16
Electrical stunning and slaughter, 573
Electrolyte balance:
  and leg defects in poultry, 87
  in sheep, 147
ELISA test for antibodies to turkey rhinotracheitis, 282
Embryology and leg defects in poultry, 82
Endocrine disease in small animals:
  adrenal cortex, 329
  adrenal medulla, 335
  anaesthetic management, 323
  pancreas, 323
  thyroid, 337
Endoparasites in dogs in Kabul, 372
Enteric infections in domestic animals in Australia, 521
Enterococci in pigs resistant to mupirocin, 304
Environmental considerations of fatty liver haemorrhagic syndrome, 605

Epidemiological techniques in veterinary practice, 455
Experiments on immunosuppression, 291

Faecal analysis as aid to detection of exocrine pancreatic insufficiency, 174
Fat necrosis in cattle, 507
Fatty liver syndrome in laying hens, 602
Feed ingredients and leg defects in poultry, 85
Fertility:
  effect of *Trypanosoma vivax* and *Trypanosoma congolense* infections, 388
  ram, 45
Fetal pituitary–adrenal axis, role in sheep fetus, 552

Genetic factors and fatty liver haemorrhagic syndrome, 606
George Fleming prize, 369
Glycopyrrolate in small animal anaesthesia, 15
Goats:
  helminthiasis, 590
  liver and kidney function in tick-borne fever, 581
Grey seal mortality, 497
  bacteriology, 498, 500, 503
  body flora, 498
  morbidity, 498, 500, 505
  post-mortem examinations, 500
  pup mortality, 498
Growth promoters:
  and haematology, 72
  Zeranol, 72
Growth promotion in pigs, influence of mupirocin, 302

Haemagglutination-inhibition tests in pigs, 197, 614
Haematology and Zeranol, 72
Heart:
  acquired defects in small animals, 110
  congenital defects in cattle, 123
  congenital defects in small animals, 108
  defects, management under anaesthesia, 5
Helminthiasis in Nigerian sheep and goats, 590
Hormonal control of fatty liver haemorrhagic syndrome, 605
Horses:
  anoestrus, seasonal, in mares, 417
  bone disease and lameness, 2
  bone quality, 1
  skeletal maturity, 2
  exercise physiology, 106
  infection by anaerobic bacteria, 374
  multiple cannulation of large intestine, 449
  osteoporosis, investigation, 2
Hyperadrenocorticism (Cushing's disease) in small animals, 332
Hypercorticosteroidism in dogs, 22
Hyperthyroidism in small animals, 338
Hypoadrenocorticism in small animals, 329
Hypocalcaemia:
  and blood chemistry in ruminants, 93
  and cardiac function in ruminants, 229
Hypomagnesaemia, 3
Hypothyroidism:
  association with atrophic rhinitis in pigs, 395
  in dogs, 23
  in small animals, 337

Immune response in cockerels, effect of insecticides, 610
Immune system, major components, 291
Immunosuppression in animals, 288
  agents, 288
  causes, 292
  evaluation, 290
Infection, prevalance of subclinical mastitis, 320
Infertility in cattle, 29
Influenza A virus in pigs in England in 1987, 196
Inotropic agents, 17
Insecticides, effect on immunity in cockerels, 610
Interval between calving and oestrus in Bunaji cows, 258
Interventricular septal defect in cattle, 127
Intestinal cannulation in the horse, 449
Intrapartum hypoxaemia and dystocia in ewes, 559
Iron, role in prevention of tissue peroxidation, 491
Isoprenaline in small animal anaesthesia, 13
Isoprothiolane for treatment of fat necrosis in cattle, 507

Lameness:
  and horn composition in Friesian dairy cows, 534
  and pregnancy in Friesian dairy cows, 273
Lead absorption, influence of dietary factors, 240
Leg defects in poultry, 81
Lignocaine hydrochloride in small animal anaesthesia, 9
Lipid peroxidation, control, 486
Liver:
  disease in dogs, 26
  and kidney function of goats with tick-borne fever, 581
Livestock economics, a new look, 210

Machine milking and mastitis, 524
Marsupials, Australian, parasites of, 211
Mastitis:
  bacteriology, 320
  clinical, incidence by pathogen, 321
  control in England and Wales, 316
  and dry cow therapy, 166
  machine milking, 524
  subclinical, prevalence, 320
Maternal underfeeding in ewes, 559
Maturational changes in newborn lambs, 553
Mechanism of induction of fatty liver haemorrhagic syndrome, 607
Metoclopramide as treatment for watery mouth in lambs, 570
Milk production, economics, 213
Milk quotas, economics, 221
Milk sales, 1984–87, 223
Milrinone in small animal anaesthesia, 18
Minerals, influence on bone development in poultry, 89
Mitral insufficiency in small animals, 110
Molybdenum, effect on copper distribution in young steers, 543
Mortality:
  grey seals, 497
  imported tortoises, 187
    Testudo graeca, 188, 190
    Testudo hermanni, 189
  newborn lambs, 561
Mupirocin, antibiotic in pigs, 302
Mycotoxins:
  inducing vitamin E deficiency, 494
  and leg defects in poultry, 86

National Mastitis Awareness Scheme, 316
Neuraminidase inhibition test for swine influenza, 199
Nutrition and fatty liver haemorrhagic syndrome, 604

Obesity in dogs, 21
Oestrone sulphate in bovine serum, 269
Oestrus:
  effect of *Trypanosoma congolense* infection in Boran cow, 379
  in post-partum Zebu cows, 253

Pancreas, disease in small animals, 323
Pancreatic insufficiency in dogs, 174
Pancreatic insulin-secreting tumour in small animals, 327
Pansystolic murmur in cattle, 128

Parainfluenza virus type 3, antibodies in swine, 613
Parasites:
of Australian marsupials, 211
as causes of immunosuppression, 289
of dogs in Kabul, 370
in pigeons, 596
Parasympatholytics in small animal anaesthesia, 15
Parasympathomimetics in small animal anaesthesia, 16
Parturition in sheep, 552
Patent ductus arteriosus:
in small animals, 109
in cattle, 124
Pathogens in mastitis, 320
Pedobarogram of pregnant cow, 279
Pericardial effusion and cardiac tamponade in small animals, 113
Peripartal behaviour of pigs, 139
Periparturient changes in gut nematodes in the ewe, 561
Phaeochromocytoma in small animals, 335
Pharmacokinetics of pralidoxime in buffaloes, 236
Pigeon, ventriculus worm infection, 596
Pigs:
antibodies to parainfluenza virus type 3 in swine, 613
atrophic rhinitis and hypothyroidism, 395
early pregnancy diagnosis in sows, 64
growth promotion using mupirocin, 302
influenza A virus in England in 1987, 196
peripartal behaviour, 139
piglet enteritis, 522
production, economics, 434
resistance of enterococci to mupirocin, 302
Yersinia enterocolitica in, prevalance and characteristics, 131
Placental insufficiency in ewes, 558
Plasma concentration profile of pralidoxime in buffaloes, 238
Polyphagia, drug-induced in dogs, 23
Polyunsaturated fatty acids (PUFA):
concentration of tissues and membranes, 488
dietary modification in membranes, 489
peroxidation, 484
role in mammals, 483
Poultry:
aetiology of fatty liver syndrome in laying hens, 602
alimentary tract colonization with salmonellas in chicks, 403
Campylobacter jejuni in quails, 411
disease control, 313
effect of insecticides on immune response in cockerels, 610
leg defects in, 81
neglected subject, 4
salmonella in chicks, 403
Pralidoxime in buffaloes, 236
Pregnancy diagnosis in sows, 64
Premature birth in sheep, 560
Procainamide hydrochloride in small animal anaesthesia, 7
Progesterone:
assay with blood paper to determine pregnancy in sows, 64
in bovine body fluids, 262
Propranolol hydrochloride in small animal anaesthesia, 9
Pulmonic stenosis in small animals, 109

QUINIDINE in small animal anaesthesia, 8

RABIES in a civet cat, 515
Radioactivity monitoring after Chernobyl, 180
Radiocaesium absorption in domestic animals and animal derived foods, 363
Radioimmunoassay:
for oestrone sulphate in bovine serum, 269
of progesterone in cows, 264
of progesterone in sows, 66
Reproductive tract abnormalities in rams, 48
Respiratory disease in dogs, 25

SALMONELLA in chickens, 403
Salmonella kedougou in chickens, 406
Salmonella typhimurium in chickens, 406
Scrapie, ovine, in Cyprus, 98
Secondary polycythaemia in dogs, 26
Selenium:
role in prevention of tissue peroxidation, 490
status in sheep, 246
Semen:
clinical specimens, detection of BHV, 61
experimentally infected, detection of viral DNA, 60
Serum progesterone:
concentration in post-partum Zebu cows, 253
profiles, 255
radioimmunoassay, 254
Serum urea levels in calves implanted with Zeranol, 76
Sheep:
causes of lamb death, 561
chemiluminescence response in blood, 158
diarrhoea in lambs, 522
effect of pregnancy and sodium intake on:
aldosterone concentration, 152
potassium excretion, 148, 153
sodium excretion, 151, 154
water intake, 151
electrical stunning and slaughter, 573, 576
electrolyte balance in, 147
ewe–lamb bonding, 557
fetal pituitary–adrenal axis, role of, 552
helminthiasis, 590
influence of season and husbandry on selenium status, 246
intrapartum hypoxaemia and dystocia in ewes, 559
maternal underfeeding, 559
maturational changes in newborn lamb, 553
parturition, 552
pathophysiology of newborn lambs, 552
periparturient changes in gut nematodes in the ewe, 561
placental insufficiency in the ewe, 558
premature birth, 560
production, economics, 426
ram fertility, 45
ram studs, 50
scrapie in Cyprus, 98
slaughtering procedures, 573
starvation of newborn, 560
udder development in the ewe, 557
watery mouth in lambs, treatment with metoclopramide, 570
Skeletomuscular disease in dogs, 26
Small animal anaesthesia, *see* Anaesthesia in small animals
Sperm:
abnormalities in Zebu bulls infected with *T. congolense* and *T. vivax*, 393
assessment in rams, 46
Spermiogram of Zebu bulls infected with *T. congolense* and *T. vivax*, 391
Starvation of newborn lambs, 560
Subcellular fractionation of liver tissue of steers, 545
Sulphur, effect on copper distribution in young steers, 543
Superoxide dismutase, role in prevention of tissue peroxidation, 491
Swine influenza virus, 196

THYROID:
disease in small animals, 337
hormone levels in pigs with subclinical atrophic rhinitis, 399
Tick-borne fever in goats, 581

Tissue peroxidosis, detrimental effects, 485
Tortoises, mortality in the UK, 187
Tricuspid valve abnormality in cattle, 126, 128
Trypanosoma congolense infection:
  in Boran cows, 379
  in Zebu bulls, 388
Trypanosoma vivax infection, effect on fertility in Zebu bull, 388
Trypanosomiasis:
  and infertility, 388
  and oestrus in Boran cows, 379
Trypsin digest tests in dogs, 177
Turkey rhinotracheitis, 282

VENTRICULAR hypertrophy and cardiomyopathy in small animals, 111
Ventriculus worm infection in the pigeon, 596
  morphological description, 598
  taxonomy, 600
Verapamil in small animal anaesthesia, 11
Veterinary epidemiology, 455
Veterinary services, economics, 343
Viral DNA, detection in experimentally infected semen, 60
Viruses causing immunosuppression, 289, 296
Vitamin A inducing vitamin E deficiency, 493
Vitamin E:
  concentration of tissues, 489
  deficiency, 482
  in plants, 483
  role in lipid peroxidation, 486
  α-tocopherol, importance, 486
  uptake, factors modulating, 492
Vitamins, influence on bone development in poultry, 87

WATERY mouth in lambs, possible treatment with metoclopramide, 570

YERSINIA enterocolitica in pigs, 131
  biochemical reaction, 134
  MIC of antimicrobial agents, 135
  prevalence of antibodies in slaughtered pigs, 135
Yersinia spp.:
  antibiogram determination, 133
  detection of virulence markers, 132
  isolation and identification, 132
  serological test, 133
  typing, 132

ZEBU cows:
  detection of oestrus, 254
  post-partum, serum progesterone profiles, 253
Zeranol in calves, 72
